Happytimes

Matt Wertz

Happytimes are here again
And I've been gone a while
But you can still call me friend
We can play in the sun and laugh forever
I'm so glad that we're back together'Cause the wait's been good while I was gone
And the air's been high and free
You've been out with other guys
But I want you I want you to know
I want you to want meI missed Wyoming and the cornerstone
But now I'm here and it's so good to be home
It seems like I've been gone forever
I'm so glad that we're back together'Cause the wait's been good while I was gone
And the air's been high and free
You've been out with other guys
But I want you I want you to know
I want you to want meI wanna go back to the nelson
Back out to the garden
I wanna drive with the top down and singThat happytimes are here again
I've been gone a while but you can still call me friend
We can play in the sun and laugh forever
I'm so glad that we're back back together
