# Say What You Will

## MEASURE X UP

Say what you will
Good love is hard to find
I've had my fill
Of the hurtin' kindTake a lot of money
To buy up all the pain
Take a lot of, honey
Fill me up, put me back
On my feet againYou've seen the worst
Still you find the best of me
My love was cursed
Losin' destinyTake a lot of livin'
To dry up all the tears
Take a lot of grinnin'
Cheer me up, put me back
On my feet againYou know I needed a friend
That I could tell my troubles to
And you have been my friend
So I will give my love to you
Good love from me to youHere it comes again
Feel I'm not good enough
Can't remember when
It ever felt so toughTake a lot huggin'
Drive away the fear
Take a lot of lovin'
Pick me up, put me back
On my feet againYou know I needed a friend
That I could tell my troubles to
And you have been my friend
So I will give my love to you
A good love from me to youI know you needed a friend
That you could tell your troubles to
And I'll be your friend
And I will give my love to you
A good love from me to youGood love, good love, baby
Good love from me to you
Good love, good love, baby
Good love
