# Tell Me Something Good

## Ugk

Hey, what you got? You don't know anything
That I'm gonna say right now
'Cause I'm not so sure why I'm here and why I wanna
Keep on hanging 'round right now
Not that I do it now or any day, sometimes I just get burned out
About lots of things and well just doubt
So tell me something good you got it
And why am I so misunderstood
'Cause I wanna know this
'Cause I'm confused and I do break into two
So tell me how about you
Hey, what you got? Something bad and I want it
Even though I know it's wrong
But I won't be blessed 'cause I know this, so I can't have that
So I could show I gotta be strong
Man I don't wanna be able to breathe, be able to see what's become
Of the wars of this world and the wars from my tongue
So tell me something good you got it
And why am I so misunderstood
'Cause I wanna know this
'Cause I'm confused and I bruise
Yes I do, so tell me how about you
So please, just tell me something good you got it
And why am I so misunderstood
'Cause I wanna know this
Come on baby and race me
And maybe we'll just find ourselves
I wanna be, I wanna be like that mountain
I wanna stand taller and bigger than the rest
See, I just wanna be it a guy who wins all the time
I wanna be a big star, a king and rule my own life
And God, I know that it's wrong
So please just make my heart right inside and destroy my pride
So you can tell me something good you got it
And why I am so misunderstood
'Cause I wanna know this
'Cause I'm confused and I bruise
Yes, I do, so tell me how about you
So please just tell me something good you got it

And why am I so misunderstood
'Cause I wanna know this
Come on baby and race me
And maybe we'll just find ourselves
Hey, what you got?
Something bad and I want it
Even though I know it's wrong
