One Yellow Button

Operator Please

I don't know if
It's safe to go outside anymore
Cause when you're walking down the streets and it's lonely
And the pavement and the bricks trip me over
Cause my grazed knees are gathering dustSo we can try
To look at ourselves in each others eyes
You know my shoes can only get so muddy
Before my laces turn to black and discolor
But we could stay undercover and color in the dinosaursI'll shoot the sun down soon
Cause I want it to rain
Tomorrow you could be my
Puddlejumper again
I'll shoot the sun down soon
Cause I want it to rain
Tomorrow you could be my
Puddlejumper againI don't know if
It's safe to go outside anymore
Cause when you're walking down the streets and it's lonely
And the pavement and the bricks trip me over
Cause my grazed knees are gathering dustI'll shoot the sun down soon
Cause I want it to rain
Tomorrow you could be my
Puddlejumper again
I'll shoot the sun down soon
Cause I want it to rain
Tomorrow you could be my
Puddlejumper againWe'll shoot the sun down soon
Cause I want it to rain
