I'll Be Standing By

Foghat

Standing in the shadows
Waiting for your love light to shine on me
When you're lonely and the pain shows
Call me, I'll be right there to set you freeWalking down a dark road to loneliness
The night has no mercy
I feel a need in me I can't expressI'll be standing by
I'll be standing by
I'll be standing byCome to me, when you're lonely
You need someone to love, let it be me
The way you love me and hold me
Made me realize how sweet love can beStanding on a backstreet
In the falling rain cryin' for mercy
Until you come to me and ease the painI'll be standing by
I'll be standing by
I'll be standing byI'll be standing by
I'll be standing by
I'll be standing byI'll be standing by
There'll be no need to cry
I'll be standing byCome to me, come to me
'Cause I'll be standing
I'll be standing by
