

Life

The Cadillac Three

Yeah, I used my one phone-call and called my pops
Said we went down to Mexico, tequila shots,
There was hard robbery so I got on one knee,
She said I do, I said I do too, baby, baby please
Lock me up baby, throw away the key
If this is love then I don't wanna leave
Your ball and chain, honey, don't scare me
It fits just right, like a pretty little ring
I don't want no 10 to 20, honey,
My sentence starts tonight, I'm in for life
Yeah, we got matching hats and jailbird tattoos
We danced all night like the kids in "Footloose"
Singin' "Free Bird" behind love's bars
Wouldn't leave if I could, cause this time ain't hard
Lock me up baby, throw away the key
If this is love then I don't wanna leave
Your ball and chain, honey, don't scare me
It fits just right, like a pretty little ring
I don't want no 10 to 20, honey,
My sentence starts tonight, I'm in for life
Lock me up baby, throw away the key
If this is love then I don't wanna leave
Your ball and chain, honey, don't scare me
It fits just right, like a pretty little ring
Lock me up baby, throw away the key
If this is love then I don't wanna leave
Your ball and chain, honey, don't scare me
It fits just right, like a pretty little ring
I don't want no 10 to 20, honey,
My sentence starts tonight,
I'm in for life
