Winter Love

Rah Band

Love, deep in the heart of me
Winter love
You warm every part of me
Winter love
You melt all the pride in me
Winter love
Youre deep down inside of me
Winter loveI thought that my life was through
The days were so empty and all I could think of was how much I needed youOh but love, out of the darkest night
Winter love
Come into the candlelight
Winter love
And here in the fire glow
Winter love
No, Ill never let you go
Winter loveI never could dream for long
I needed the warmth of the soft summer wind and the trees just to turn me onOh but love, under a starry sky
Winter love
My temper just ridin high
Winter love
In spite of the rain and snow
Winter love
No, Ill never let you go
Winter love (5x)Love, deep in the heart of me
Winter love
You warm every part of me
Winter love
You melt all the pride in me
Winter love
Youre deep down inside of me

I needed the warmth of the soft summer wind and the trees just to turn me onOh but love, under a starry sky
Winter love
My temper just ridin high

In spite of the rain and snow
Winter love
No, Ill never let you go
My winter loveWinter love (4x)
