Fear

Traitors Curse

Seems as though you're here again
Even though this day won't end
Always a step behind me then
Creates a vision that blinds within
If you could only see
The thought that burns inside
Gives you a feeling that you think will hurt me
A sight that burns the eyes
Is you'll never catch me and I know it kills you
(It kills you)
Flip the switch and start again
Get the feeling every now and then
That your eyes are watching me
Creates a burning inside of me
I wish that you could feel
(All the shit that you put me through)
The thought that burns inside
Gives you a feeling that you think will hurt me
A sight that burns the eyes
Is you'll never catch me and I know it kills you
(It kills you)
Of course I saw you stumble
Always a step ahead
I could have sworn I saw you say
You're confused in what you see
Confused in what I mean
I'll show you everything you thought
You'd ever taught to me
The thought that burns inside
Gives you a feeling that you think will hurt me
A sight that burns the eyes
Is you'll never catch me and I know it kills you
(It kills you)
Something about this says you'll walk away
You lasted all but now it's coming down
It's coming down
Of course I saw you stumble
Always a step ahead
I could have sworn I saw you say

You're confused in what you see
Confused in what I mean
