Heaven Only Knows

Faith Evans

Who knows what tomorrow brings?
And heaven only knows
What's on the other side of the rainbow
All I know is what the seasons bring
And even with the seasons come uncertainties
Who knows? Do you know? I don't know
Heaven only knows what the future holds
Heaven only knows what's over the rainbow
Just imagine all the possibilities
Heaven only knows what the future holds
God gave me a conscious heart
And my responsibility is to teach my people
Tryin' to make them understand
Your will, your perfect plan
Who knows? Do you know? I don't know
Heaven only knows what the future holds
Heaven only knows what's over the rainbow
Just imagine all the possibilities
Heaven only knows what the future holds
Heaven only knows what the future holds
Heaven only knows what's over the rainbow
Just imagine all the possibilities
Heaven only knows what the future holds
We can't live for tomorrow
So make the best out of today
We gotta keep the faith
If we just keep that faith through the night
We'll be alright
Heaven only knows what the future holds
Heaven only knows what's over the rainbow
Just imagine all the possibilities
Heaven only knows what the future holds
Heaven only knows what the future holds
Heaven only knows what's over the rainbow
Just imagine all the possibilities
Heaven only knows what the future holds
Heaven only knows what the future holds
Heaven only knows what's over the rainbow
Just imagine all the possibilities

Heaven only knows what the future holds
