

Malaria

L.A. Guns

She's malaria, she's malaria Somewhere from another time
Asiatic death
Yellow fever bodies writhe
Sugar on my breath Is this the final curtain?
I don't believe what's happening
She hides behind a veil of tears
Plays upon my darkest fears yeah She's malaria, she's malaria Swamp fever
Water black as mud
Strength fading
Demon hold, hungry for my blood So desperately I cling to life
Pain I know I must survive, entity
She hides behind a veil of tears
Plays upon my darkest fears, misery She's malaria, she's malaria Desperately I cling to life
Pain I know I must survive, entity
She hides behind a veil of tears
Plays upon my darkest fears, misery She's malaria, she's malaria
She's malaria, she's malaria
