Lucky

Doll-E Girl

Scared and lonely
Going out for the night
Shakin' all over
And wishing I'd never come here
He pulled up in a
Cloud of smoke
So much was said
But nobody spoke a word
So I took a chance
And he followed me home
I knew he wouldn't beg
So I gave in without fighting
Been so long
Since I loved this way
So I asked him
If he would stay for a while
Lucky comes easy
Lucky's not shy
And if you're lucky
You'll go for a ride, for a ride
We talked for a while
And he told me it was nice
We laughed and we cried and
I knew that I could love him
He got up
To say goodbye
I said where you going
He said that he must leave
Lucky comes easy
Lucky's not shy
And if you're lucky
You'll go for a ride, for a ride
Lucky comes easy
Lucky's not shy
And if you're lucky
You'll go for a ride, for a ride
Lucky takes you out for a ride, for a ride
Lucky takes you out for a ride
Lucky comes easy

Lucky's not shy
And if you're lucky
You'll go for a ride
Lucky comes easy
Lucky's not shy
And if you're lucky
You'll go for a ride
