Beautiful Heartbreak

Hilary Weeks

I had it all mapped out in front of me
Knew just where I wanted to go
But life decided to change my plans
And I found a mountain in the middle of my road
I knew there was no way to move it
So I searched for a way around
Broken-hearted I started climbing
And at the top I foundEvery fear, every doubt, all the pain I went through
Was the price that I paid to see this view
Now that Im here I would never trade
The grace that I feel and the faith that I find
Through the bittersweet tears and the sleepless nights
I used to pray Hed take it all away
But instead it became
A beautiful heartbreakI never dreamed my heart would make it
And I thought about turning around
But Heaven has shown me miracles
I never would have seen from the ground
Now I take the rain with the sunshine
Cause theres one thing that I know
He picks up the pieces
Along each broken roadChorus
