Dripping

Cruento

Find me, want to want
Never what you see
Calling, calling, the depth becomes
Grab a hold of my face, so numbSoar far fly away
I'm breaking through to you
Soar far fly away
I'm breaking through to youTouch you, feel the cold
Friendships grow so old
Difference, difference, never to know
Clearing my mind as I goSoar far fly away
I'm breaking through to you
Soar far fly away
I'm breaking through to youTo you
Breaking through
Breaking through
Breaking through
To you, to youBreaking through to you
Breaking through
Breaking throughYou take away my mind
I'll take away your prideSoar far fly away
I'm breaking through to you
Soar far fly away
I'm breaking through to youI'm breaking through to you
