Price for Love

The Wedding

The lights go out in my corner of the world tonight
And so do the lights in your eyes
Yeah so did the lights in your eyes
Now I don't want to preach at you,
I just care too much
To let you walk away from thisAnd He died, so never forget, forget His love
Yeah He died, to show us, the price you pay for loveI never said that this would be easy
In fact it's the hardest thing that you will ever do
But don't worry they will never capture you
You've already been set free from thisSo right your wrongs and make your amends
We are running out of time
This is our song that we sing from the mountain
Can you hear it, can you hear it
This is our song that we sing to You
Can you hear me, can you hear me
