Celebrity

Big Sean

Chorus:
I am in love with the lies, the love, the rise, the wrongs,
They told me that it wouldn't be night for long!
The lights, the love, the rise, the wrong
They told me that it wouldn't be night for long!
And I'm in love with the lights, the love,
Celebrity hoes, Hollywood parties that never get old!
Table full of new hoes, champagne nuevo,
But my money is on Venus, but my neck is on pluto.
I need a girl that look better than my girlfriend,
Not the ones that look better than their girlfriends,
Paparazzi try to pop big since Im in cali
But I just hide my face doing da earl
Hoody over my head, Jedi,
And again, looking like a baby seal,
Louis V manican she ain't got no man in him,
She got no companion, she's Jenifer Aniston,
I'm trying to hit her, and her friend!
And again, and again,
Pass it to my mans and them,fuckin all da baddest bicthes in city we're landing in!
What happens when it all falls,?
And the success is all gone, and is all gone?
But for now I'm a celebrity!
For now I'm a celebrity!
Chorus:
Cause I'm in love with the lies, the love, the rights, the wrongs,
They told me that it wouldn't be night for long!
The lights, the love, the rise, the wrong
They told me that it wouldn't be night for long!
The money they said that is the root of all evil,

At least that's what the pastor tried to teach us,
But he ain't pass around and collects that collection plate
Until its heavy weight as soon as his speech through
Then hop in dat benz coupe
Shit, I'm trying to get a benz too!
Bit how is it the root of all evil?
If it could take my whole family out to rio
No more repo or debo come and see 3PO.

Smoke so much, I gotta see 3POs
Cause I'm worldwide tour with me and..
Most cut the? behind the mikes like?
So I hate to lose my mike like..
What happens when it all falls,
And the success is all gone, and is all gone?
But for now I'm a celebrity!
For now I'm a celebrity!
Chorus:
Cause I'm in love with the lies, the love, the rights, the wrongs,
They told me that it wouldn't be night for long!
The lights, the love, the rise, the loss
They told me that it wouldn't be night for long!
Anything in life for love and meaning,
I hope they never try to tell me I'm leaving,
Getting everything I want, then I've got my mom next,
And the resign checks right after the contract.
My boys have a crazy flow?
I guess cause I was active on a radio.
Way back in high school, yeah nigger same team,
Way before?
We just contract needs!
It's funny now when I look back,
Cause? the inspiration to drag needs.
