Antimatter

Xenomorph

I'm antimatter
I don't matter
Cancer phones
Break my bones
I'm illusion
Sonic solution
Magic mind
Sonic pollution
I just detox
I just see lots
I see nothing
Show me something
We go round, round
We make it safe and sound
I try to break it down
Alright
We go round, round
We make it safe and sound
I try to break it down
Alright
I have visions
Homo Sapiens
Fast I've grown
I think alone
I'm confusion
Evolution
I am a man cub
Institution
I move forward
I make awkward
I just jump, jump
I just thump, thump
We go round, round
We make it safe and sound
I try to break it down
Alright
We go round, round
We make it safe and sound
I try to break it down

Alright
I go round, round
In my sound, sound

[Incomprehensible][Incomprehensible]Round, round
In my sound, sound
[Incomprehensible][Incomprehensible]I evolve
Then dissolve
Maintain my lies
'Til April falls
My sea runs red
My trees are dead
My breath runs short
Please report
Is there someone out there?
Is there someone out there?
Do you receive me?
Do you receive me?
We go round, round
We make it safe and sound
I try to break it down
Alright
We go round, round
We make it safe and sound
I try to break it down
Alright
We go round, round
We make it safe and sound
I try to break it down
Alright
We go round, round
We make it safe and sound
I try to break it down
Alright
Alright
Alright
Alright
We go round, round
We try to
We go round, round
Make it alright
