Moth

People In Planes

Moth on the wall you never fall
You just disappear from view
You don't even have to try
To make a nuisance of yourselfYou deny all knowledge
That anything ever happened
Did it ever happenSo where did you go?
Come back and finish me
But you're just a moth so
Make a nuisance of, yourselfSomeday you will find
You can't stand yourself
You'll radiate your self-hateAre you aware of the smoke?
It's getting in my face
I dedicate this song to you
For choking up my lifeOh sheriff
You're pregnant
So who'll stop the killing spree
When you
Take your
Maternity leaveSo where did you go?
Come back and finish me
But you're just a moth so
Make a nuisance of, yourselfSomeday you will find
You can't stand yourself
You'll radiate your self-hate
