Stay

Minty Style

Stay...
Never felt so alone, laying here in the dark
The room is so cold, and I'm crying out my heart
Hungry but can't eat, IÂ´m tired I can't sleep
Look in the mirror but I don't recognize me
I need you now more than ever, hold me through the night
I don't want to be here forever, promise me you...
Stay stay stay, When there's no one else around,
Say say say, that you wont leave me now,
Save save save, save me from the dark,
Take me in your harms
Promise me you stay stay stay ohhh
Promise me you stay stay stay ohhh
And today is a stormy rain, I tried to run tried to escape
I can't carry on, I let my life go to waist
I gave my everything, to make it this far
And is killing me, to watch it all fall apart.

I need you now more than ever, hold me through the night
I don't want to be here forever, promise me you...
Stay stay stay, When there's no one else around,
Say say say, that you wont leave me now,
Save save save, save me from the dark,
Take me in your harms
Promise me you stay stay stay ohhh
Promise me you stay stay stay ohhh
Rain toss like this, wash away my face
Your face I kiss, I feel you near
Wake up envy you need to be
Please don't leave, I need you to stay
Stay stay stay, When there's no one else around,
Say say say, that you wont leave me now,
Save save save, save me from the dark,
Take me in your harms
Promise me you stay stay stay ohhh
Promise me you stay stay stay ohhh
Stay...
