I Fell In

Vanessa Williams

Ooh yeah, I thought I knew my name
But when you asked everything went blank
I must have looked like a fool
But it's true time really can't stand still
Was it something in the wind that told me look again?
'Cause I stared into your eyes and then
I fell in, ooh
I fell in, ooh yeah
I've always been afraid
'Cause there's a chance I'll make a big mistake
All I trust is how I feel
It's so real but somehow I feel safe
How do you know what's at the end of a rushing riverbed?
But you took me to the edge and then
I fell in, ooh
I fell in, ooh yeah
I fell in, I fell in
So I let the ocean carry me and where it takes me I don't know
So far away everywhere I thought I'd be
Something in the wind told me look again
'Cause I stared into your eyes and then
Ooh, I fell in, ooh
I fell in, ooh
I fell in, I fell in
I fell, I fell
