Split

Seconds Away

Advisory - the following lyrics contain explicit language:

Are you listening?
Are you there?
It's too late for trying, and it's clear there's nothing left
Come out and face your fears
Cause there's no denying
We're one day closer to death
Paint it black, just
Draw it down, hope
There's enough to -
Make it out, and
Save yourself - before it's too late
Don't you know you can't run off on your fateDon't say - the words
That I said before
Don't listen - when they tell you
That it's not worth fighting for
We've already wasted - time
That we didn't have to lose
Don't need to replace it (oh)
When you know they're gonna take it back from youJust run like hell
While the lights are turnin' red
We'll be left with nowhere else to go
But down the dark road that lies ahead
Let your hands down
Off the wheel, they're
Moving in now
For the kill, so
Save yourself, before it's too late
Don't you know you'll never run off on your fateDon't say - the words
That I said before
Don't listen - when they tell you
That it's not worth fighting for
We've already wasted - time

That we didn't have to lose
Don't need to replace it (oh)
When you know they're gonna take it back from youYou didn't know -
But you'll find
It's down below -
[Down the dark road that lies ahead]
[Down the dark road that lies ahead]
