Ghost Dance

Nayru

We shall live again
We shall live
What is it children that falls from the sky?
Tayi, taya, tayi, aye aye
Mannah from Heaven, from the Most High
Food from the Father, tayi, taye aye
We shall live again
We shall live again
We shall live again
Shake out the ghost dance
(We shall live)
Peace to your brother, give and take peace
Tayi, taya, it leaves two feet
One foot extended, snake to the ground
Wave up the earth, one turn around
We shall live again
We shall live again
We shall live again
Shake out the ghost dance
(We shall live again)
Stretch out your arms, now tip and swing
Rude up thy bird, tayi, tayi
Threw out the shoe over the soil
Dust off the words that shaped from the tale
We shall live again
We shall live again
We shall live again
Shake out the ghost dance
(We shall live again)

Here we are, Father, Lord, Holy Ghost
Bread of Your bread, host of Your host
We are the tears that fall from Your eyes
Word of Your word, cry of Your cry
We shall live again
We shall live again
We shall live again
What is it, Father, in Your eye?
What is this [Incomprehensible] , eyes of God?

[Incomprehensible] feels, just what I need
You used to fly me the way to speed
What is it, Father, holy that night?
What is it, Father, that moves to the right?
What is it, Father, that is waiting in Heaven?
What is it, Father, that shapes from Your hand?
What is it, Father, that makes me spin around?
What is it, Father, that brings, bring me down?
What is it, Father? You can't tell what I like
What is it, Father? I just ride [Incomprehensible]
What is it, Father? I can tell you one night
What is it, Father? I can tell what I like
What is it, Father, are You into shape?
What is it, Father, are You calling today?
What is it, Father [Incomprehensible]
What is it, Father [Incomprehensible]
What is it, Father [Incomprehensible]
What is it, Father [Incomprehensible]
What is it, Father [Incomprehensible]
