

# Come One, Come All

## Gestapo Khazi

Come one, come all you're just in time  
To witness my first breakdown  
'Cause there's a mile gone for every minute passed  
When I'm stuck in this town  
I've got a bone to pick with you, Mr. DJ  
The traffic in this town is just as bad as it is in L.A.  
So go on and lock me up  
You better throw away that key  
Before I find out where you broadcast from  
Because your playlist is killing me  
I'll change that station  
Light it up like the 4th of July  
It's me, I'm caller fifteen  
Time to play my last request  
Come one, come all, you're just in time  
To witness my first breakdown  
'Cause there's a mile gone for every minute passed  
When I'm wasting space in this town  
Don't call the doctors, I don't need no medication  
I just need one more vacation and make it last  
Hear me out please, judge and jury  
I'm an innocent man  
And it would be such a terrible injustice  
To put me away without thinking about  
All the terrible mistakes  
That goddamn radio jockey makes  
I swear, he's out to get me  
Oh, I swear he's out to get me  
I'll change that station  
Light it up like the 4th of July  
It's me, I'm caller fifteen  
But it's too late for explanations  
This broadcast will be your last  
Come one, come all, you're just in time  
To witness my first breakdown  
'Cause there's a mile gone for every minute passed  
When I'm wasting space in this town  
Don't call the doctors, I don't need no medication  
I just need one more vacation and make it last

Hear me out please, judge and jury  
And I swear he's out to get me  
Oh, I swear he's out to get me  
Go on and lock me up  
You better throw away that key  
And I swear he's out to get me  
Oh, I swear he's out to get me  
I've got a bone to pick with you, Mr. DJ  
You really oughta lock me up  
Because your playlist is killing me  
Come one, come all, you're just in time  
To witness my first breakdown  
'Cause there's a mile gone for every minute passed  
When I'm wasting space in this town  
Don't call the doctors, I don't need no medication  
I just need one more vacation and make it last
