Enter This Temple

Leeland

We are saved in a world that?s lost
All our hope rests in Your Cross
God of strength, our weakness shows
We need You, we need You, Lord
Father, enter this temple
Come touch Your people
We need to be where You are
And children living as their Father
Washed in pure water
We need to be like You are
We are searching for Your presence
We are knocking on Your door
Let Your wings cover us with promise
For communion, for communion
Father, enter this temple
Come touch Your people
We need to be where You are
And children living as their Father
Washed in pure water
We need to be like You are
To be like You are, to be where You are
Father, come touch Your people
To be like You are, to be where You are
Father, come touch Your people
Father, enter this temple
Come touch Your people
We need to be where You are
And children living as their Father
Washed in pure water
We need to be like You are
To be where You are, to be like You are
To be where You are, to be like You are
