Capital T

Duff McKagan

Yeah you're easy on the eyes baby
Yeah you're wise beyound your years
I said that i'd like to call in the night
You glad to stay until my money disappearsYeah i've got to wake up early in the morning
And i think we can agree
That I'm never gonna get a good night sleep
With you lying here next to meYeah you making it hard
Hard on me
It's true that it's torture your trouble, baby
With the capital TYeah you only getting started
Yeah you only shifting gears
You wanna beat you can dance to
I like the songs that bring the cowboys to tears
So i lie awake with worrie
-wondered--where--you--been-
You'll be dancing 'til the sun comes up
I'm wondered if i'll ever see you again
