Forget Everything

Was (Not Was)

Can we pretend for one second that we are together
What's the point of keeping my feelings at bay
It takes a lot of me to get the nerve
To wake up, everydayAnd what if I don't, would you even care?
Would you even care?Forget everything that we have done
Erase me from your memory
Don't call, don't ask about me
Until the day hell freezes overI can't remember the last time I saw you smile
It might have been around this time last year
It takes a lot of me to get the nerve
To tell you everything is okayAnd what if I don't, would you even care?
Would you even care?Forget everything that we have done
Erase me from your memory
Don't call, don't ask about me
Until the day hell freezes overIt's gone before you know it
You can't let go of something you've never had
It's ash until you burn it
I hope I never see you againAnd what if I don't, would you even care?
Would you even care?Forget everything that we have done
Erase me from your memory
Don't call, don't ask about me
Until the day hell freezes overWhen hell freezes over
