Cowboys Like Us

Alan Jackson, George Strait, And Jimmy Buffet

I take off time to time with those crazy friends of mine
Head out on steel horses with wheels and we ride
We burn up that road to old Mexico, blend in with the desert
Just we amigos and we rollAnd cowboys like us sure do have fun
Racin the wind, chasin the sun
Take the long way around back to square one
Today were just outlaws out on the run
Therell be no regrets, no worries and such for cowboys like usWe talk about livin, babies and women
All that weve lost and all we've been givin
We sing about true love, lie about things we aint done
Drink one more cold one, come morning get up and we rollCowboys like us sure do have fun
Racin the wind, chasin the sun
Take the long way around back to square one
Today were just outlaws out on the run
Therell be no regrets, no worries and such for cowboys like usCowboys like us sure do have fun
Racin the wind, chasin the sun
Take the long way around back to square one
Today were just outlaws out on the run
Therell be no regrets, no worries and such for cowboys like usCowboys like us
