Click it, save it, seed it, share it, link it, stream it, Pirate Bay  
We do file share like we don't care  
throw music industry in despair  
It's a little bit queer but have no fear,  
let's get connected - peer to peer  
We don't give a shit about a copyright law  
we take it from the rich and give it to the poor  
(like a) high speed internet Robin Hoods  
pirate gang from file Share-wood  
You can find anything if you seek  
government secrets from Wikileaks  
images of naked celebrities  
And Jamie Oliver's recipes  
It doesn't really matter where you coming from  
From Barack Obama to Kim Dotcom  
Everybody downloads pornography  
and Dubioza kolektiv mp3s

Once you hear it you will see  
it's mega hit - OMG  
Get instructional video of how to start  
doing living-room surgeries on open heart  
Blueprints of NASA satellites  
and stolen numbers of credit cards  
If you wanna new album from Rolling Stones  
entire season of Game of Thrones  
it's little bit illegal but that's OK  
let's do it like they do on the Pirate Bay
