Spirit

DJ Ivelgo

Freedom don't come easy, babe
When your spirit's flyin' up among the clouds
And when you're faced with wise man's road
You gotta know where to go
Sun and the stars are travellin' man's companion
Leadin' the way for his journey
East and west wherever you go
Hmm
Leadin' the way
(Ooo)
The first to come
Showin' the way for his children
Now it's up to you
(Ooo)
Do you know you're pullin' through
Man, it's not easy and you know it
Children in a happy place they're always smilin'
Showin' all their love with no deception
Treatin' each other like brothers and sisters do
Yeah, yeah

Children in a real good place they're always tryin'
Jumpin' and playin' in the middle of the afternoon
Just havin' a ball, don't worry at all, yeah
Leadin' the way
(Ooo)
The first to come
Showin' the way for his children
For now it's up to you
(Ooo)
Do you know you're pullin' through
Man, it's not easy and you know it
Children in a happy place they're always smilin'
Showin' all their love with no deception
Treatin' each other like brothers and sisters do, yeah
Yeah, yeah
Children in a real good place they're always tryin'
Jumpin' and playin' in the middle of the afternoon
Just havin' a ball, don't worry at all, yeah
