Let It Ride

Uriah Heep

Before I leave town today
Well, there's something
That I wanna say
That you regret the stormy night
You put your eyes on me
Well, you cheated on me
And you lied
And I must've had that
A thousand times
But I'll be comin' back one day
Just you wait and see
Oh, yeah, let it ride, let it ride
Let it slip, let it slide
Ride the night away
Let it ride, let it ride
Let it slip, let it slide
