Skull Forrest

Danzig

Death-type dreaming hoping not fade away
Every sinking ever deeper in the gleaming
Now I'm weaving down through alleys of bone
Dermal dripping trees of people still it lingers
And it's endless winding long corridors
Of the bleaching and the grinning never frowningOh, Skull Forrest
Oh, Skull Forrest
Oh, Skull Forrest
OhAnd I see them haunting skinless forlorn
Swaying demons eyeless creatures, hearts still beating
And now fallen thickets row after row
Dangling helpless, damned and woeful still they glisten
And the faces staring that I have known
All the parted, all the missing here to greet meOh, Skull Forrest
Oh, Skull Forrest
Oh, Skull Forrest
OhSkull Forrest
Oh Skull Forrest
Oh Skull Forrest
Oh Skull ForrestOh, Skull Forrest
Oh, Skull Forrest
Oh, Skull Forrest
Oh, Skull Forrest
Oh
