Eternal

ë•™ë°©ì‹ ê¸° (æ•±æ–¹ç¥žèµ·)

Face the day, embrace the pain
Wage my war internal, save my soul eternal
Wage my war internal, save my soul eternal
Wage my war internal, save my soul eternal
Wage my war internal, save my soul
Reach out for redemption
It bites the hand that needs
Neglect becomes rejection
The silence sounds retreat
I can't believe anything you say
(It's the last time)
(It's the last time)
Chained to the past ride the wings of despair
Corroded and rusted trust beyond repair
In this triumph of the wills I won't be overrun
The pride that is instilled cannot be overcome
Chained to the past ride the wings of despair
Corroded and rusted trust beyond repair
In this triumph of the wills I won't be overrun
The pride that is instilled cannot be overcome
I can't believe anything you say

(It's the last time)
(It's the last time)
(Break it all down)
It's the last time that I'll try today
(It's the last time)
(It's the last time)
(Break it all down)
I can't believe anything you say
(It's the last time)
(It's the last time)
(Break it all down)
It's the last time that I'll try today
(It's the last time)
(It's the last time)
(Break it all down)
I can't believe anything you say
(It's the last time)

(It's the last time)
(Break it all down)
It's the last time that I'll try today
(It's the last time)
(It's the last time)
(Break it all down)
