River Of Pain

Primal Scream

Dead in the streams as a victim of dreams
Hear the whisper of unspoken promises
Moving around with your feet on the ground
It's getting dangerous to fall will it burn a hole?Why don't you ease my pain
High hopes will be in vain
With all my tears dried outIt's you and me the river of painPrint on the wall with some blood from us all
And the shadows of uncertain darkness
After the war in a world without law
And no place to land can you understand?We'll try to ease your pain
High hopes won't be in vain
With all your tears dried outIt's you and me the river of painWhy don't you ease my pain
High hopes will be in vain
With all my tears dried outIt's you and me the river of pain
