Take A Hand

Rick Springfield

Turn up your radio and put your ear to the sweet, sweet music
And take your baby and hold her in your arms and hear the music go
And if you're feeling like it, go get your lover and reel and rock her
And roll it over and hold her tighter, hold her tighter, do what she needs
You've got to take a hand, take a hand
You've got to let her know
Take a hand, take a hand
You've got to let it show
Turn up the music, put your ear to the radio
And take her gently and rock her in your arms and hear the record go
And if you're feeling like it, go get your lover and reel and rock her
And roll it over and hold her tighter, hold her tighter, do what she needs

You've got to take a hand, take a hand
You've got to let her know
Take a hand, take a hand
You've got to let it show
You've got to take a hand, take a hand
You've got to let her know
Take a hand, take a hand
You've got to let it show
You've got to take a hand, take a hand
You've got to let her know
Take a hand, take a hand
You've got to let it show
