# Don't Think Just Move

## Acroma

I've already spent
Time in delirium
I've already been
To the other side and back againWill this ever be?
The same will this ever mean anything
Will this ever be?
Anything more than a broken daydreamAnd what makes us behave in this way?
Move
Don't think just move in this way
And what makes us behave in this way?
Move
Don't think just move in this way
MoveAnd what makes us behave in this way?
Move
Don't think just move in this way
And what makes us behave in this way?
Move
Don't think just move in this way
MoveThe loss of sound the silence waits
The loss of sight the darkness waits
The loss of touch the coldness waits
Don't think just move
MoveDon't think just move.
