The One And Only

Upon This Dawning

On this road I'll spend my days
I never thought I'd leave my kingdom and my queen
My legion's always close to me
My legion's always close to me
The night is showing me everything, everything
She said "Take your things, don't come back again
You're losing everything, life is a bitch for the pure at heart
You're just wasting all your time, but I don't even care"
Baby I know, you've got a lot of nerve
For thinking that you could be
The one and only
The one and only to save me from myself
Maybe you could find a way out there
You've got a lot of nerve
For thinking that you could be, you could be
The one and only to save me from myself
My eyes, your tears
My hands, your fears
You're screaming for nothing cause your words are like silence to my ears
It's a call to arms
Come on brothers, it's time to start this war

It's your time to bow down, you stupid whore
You stupid whore
The crowd says my name while I take my throne
The night is showing me everything, everything
You sound like a meaningless voice that has just lost all it's worth
The night is showing me everything, everything
My life can give me more than this, give me more than this
I can have more than this
Baby I know, you've got a lot of nerve
For thinking that you could be
The one and only
The one and only to save me from myself
Maybe you could find a way out there
You've got a lot of nerve
For thinking that you could be, you could be
The one and only to save me
Shut the fuck up, bitch!

Cause all alone we fall, but together we're safe
Bitch!
Cause all alone we fall, but together we're safe
