The Gift

Revolution Smile

If anyone's feeling compromise
To make you feel like you are running in circles
If anyone's wanting big surprise
To make you feel like you killed boredom
This is what I give to youAnd they make it so
And they make it so
Enter the nominee
This is what I give to youOverdone feeling plastic eyes and ears
You feel like you are running in circles
Overcome the big disguise
To make you kill the will for boredom
This is what I give to youAnd they make it so
And they make it so
Enter the nominee
This is what I give to youAnd they make it so
And they make it so
Enter the nominee
This is what I give to youThis is what I give to you
This is what I give to you
This is what I give to you
This is what I give to you
