Move

LOVELINK

There's two sides to everything we say
got to move along got to
we got to cut ourselves away
we got to move out in the morning landlord isn't right
but you cant take the time see you down the road
see you down the road
open up your mind
move on out
move on outquietly now softly wider and wider
open up your mind
just get in the groove
move on up you can move
move move move move
freedom got to cut ourselves away
got to move along
yeh give it all away lets movemove it out move it out
move it out move it out
move it out move it out
