The Glass Ghost

Phildel

You were glass, I was ice,
So we built a snow-globe of our lives,
Winter remained at the door,
Over time, needing love,
It's not enough, to keep you holding on,
For more...

Chorus
Boy, you are nothing more than a ghost to me,
Ghost to me,
Presence I feel occasionally,
Love me and keep me happy with empty space,
Empty space,
Memories of winter fill your place...

Remember the first time you saw me,
I swear the classroom was empty before I,
Caught your eye,
And it was a good day for kiss-chase,
The ground was dry but I still tripped on my lace,
Closed my eyes...
The things you say, the things you do,
They slip away and fade from you,

(Chorus)

Seems like dreams are hard to see through,
I saw the best in you,
Seems like I'm just wasting my time,
Where should I draw the line,
You haunt me ghost,
You're the one that I love most,
And it's hard to care, when you're never really there...
