Rescued

Emerson Drive

I was bouncing around
Like a bottle out on the waves
About to go under, about to get swept away
Take it from me, I was lost as a man could beYou came and you saved
A drowning man in an ocean of pain
When you gave me your heart to hold onto
Baby, I'm rescuedIt's an empty feeling that fills your soul
When you've got nobody, you're left out in the cold
I still can't believe
How you reached out to meWhen you came and you saved
A drowning man in an ocean of pain
When you gave me your heart to hold onto
Baby, I'm rescuedNow even on the darkest night
Oh, I'm never alone
Your love is a guiding light
Leading me homeYou gave me your heart to hold onto
And I'm holding onto you
Baby, I'm rescued, baby, I'm rescued
I'm holding on to you
