To Make Her Love Me

Rascal Flatts

You waved your hand and it was done
Said, "Let it be" and there it was
A mountain so high it broke through the sky
A canyon so deep it brings a man to his kneesI've seen what you can do, I've seen you make miracles
And hopeless dreams come true
You made the heavens and the stars
Everything, c'mon how hard could it be
To make her love me?I said some things, I shouldn't have
Tried everything to win her back
I'm human, I messed up
Is she gone, are we done?
Forgiveness, another chance, that's all I want, it's in your handsI've seen what you can do, I've seen you make miracles
And hopeless dreams come true
You made the heavens and the stars
(Heavens and the stars)
Everything, c'mon how hard could it be
To make her love me?I've seen what you can do, I've seen you make miracles
And hopeless dreams come true
You made the heavens and the stars
(Heavens and the stars)
Everything, c'mon how hard could it be
To make her love me, to make her love me?To make her love me
