Scar Trek/Parasite God

Mortiis

We are floating - Above the mountains.
Watching all the tiny people.
How they waste themselves away.
Obey themselves away.How willingly - They lay their love.
How willingly - They sacrifice themselves,
To the Locust Master - to the one that drowned the world.They love their Parasite God - Yet they crucify me.How willingly - They lay their love.
How willingly - They sacrifice themselves,
to the bringer of hunger - to the one that drowned the world.They love their Parasite God - Yet they crucify me.I want to be your Parasite God.
So i can show you what you really are.
I want to be your Parasite God.
So i can show you what you really are.They love their Parasite God - Yet they crucify me.
