Wake Dream

Lime

(Denis LePage, Denyse LePage)Ooh-oohOoh-ooh(Intro, Repeat 4x)
It must've been a wake dreamIt must've been a wake dream, I know
I was walking in a place you know
A place where no one seemed to have a care
Hustling here and there all in despair(Chorus)
It must've been a wake dream
I realized it must've been a wake dream
I realized it must've been a wake dream
I said I realized it must've been a wake dreamOoh-oohI was searching for someone to love
Someone who can take me up above
Fly away to places far away
And never have to worry in any way(Repeat Chorus)(Instrumental Break)Ooh-oohThen I met a men just passing by
Saying that he'd teach me how to fly
He tried to hypnotize me with his words (ooh-ooh)
He said he'd be the one to save the world(Repeat Chorus 2x)
