Never Slow Down

Hammerlock

Hard like wax going up to the max
Starting up those lyrics on our radical tracks
Put on your headphones when I'm expressing lyrical
Like no other MC, my concept is a miracleWhen I've got the microphone I don't like the slow mo
You know my flow is better than a porno in Soho
All I recommend is to be in the place
When we start jammin' up and rockin' to your faceNever slow down
Never slow down
Never slow down
Never slow downNever slow down
Never slow down
Never slow down
Never slow down, slow downFresh on the mic you got it tonight
We're still on the mix and we've won the fight
Here is the lyrical assault and I call it rough
Is someone's gonna blame us enough is enough?Tried of the business sick if all the fake hellos
People run around and while they look like marsh mellows
We continue our work and we don't want repeats
'Cause we know our crowd is still addicted to our bassNever slow down
Never slow down
Never slow down
Never slow downNever slow down
Never slow down
Never slow down
Never slow down, slow downNever slow down
Never slow down
Never slow down
Never slow downNever slow down
Never slow down
Never slow down
Never slow downNever slow down
Never slow down
Never slow down
Never slow down
