Make Up

Marvelous 3

Go home and take off all your make up, make up
Don't say a word about the break up, break up
And as you're biting off your toenails, toenails
Make sure to scream that you're the only oneWho's ever fallen victim
To a stand up prom dance
And slung 50 meters from a go-cart romance
You're not the only oneLook around
Wear your frown
It keeps you down
But baby, what do you know?Look around
Wear your frown
It keeps you down
But baby, what do you know?The only coolness is your new car, new car
But does it make you wanna drive far, drive far
Better watch it, lights are turning red, up ahead
Slam on the breaks and this is probably what will happenWell, your heart will stay protected
'Cause you put it in a safety belt
But your common sense went flying through the wind shield
You're not the only oneLook around
Wear your frown
It keeps you down
But baby, what do you know?Look around
Wear your frown
It keeps you down
But baby, what do you know?Look around
Wear your frown
It keeps you down
But baby, what do you know?Look around
Wear your frown
It keeps you down
But baby, what do you know?And look around
Wear your frownAnd oh, you better come and look around
Said I better come and look around
Said I better come and look around
