Raise Your Hand

Javier Colon

tired of emotions weighing you down
the fight is all gone from your eyes
the dark skies will open but you're gonna drown
waiting for lightning to strike
so just look around and you'll see yourself in faces you don't even know
and you'll find out that you're not alone
if you've ever felt like you're falling apart raise your hand, raise your hand
and if you've ever felt that life's breaking your heart raise your, raise your hand
everyone bleeds and everyone hurts
but if you think you're alone it just makes it worse
so if you've ever felt like you're falling apart raise your, hand raise your hand
you're frayed at the edges trying to take cover under the mess that we've made
through all of this madness the damage wive suffered is the one thing that we can't escape
so just look around and you'll see yourself in faces you don't even know
and you'll find out that you're not alone
if you've ever felt like you're falling apart raise your hand, raise your hand
and if you've ever felt that life's breaking your heart raise your, raise your hand
everyone bleeds and everyone hurts but if you think you're alone it just makes it worse
so if you've ever felt like you're falling apart raise your hand, raise your hand
i know that you think that the world just forgets
but look to the sky you'll see hand silhouettes
if you've ever felt like you're falling apart raise your hand, raise your hand
and if you've ever felt that life's breaking your heart raise your, raise your hand
everyone bleeds and everyone hurts but if you think you're alone it just makes it worse
so if you've ever felt like you're falling apart raise your hand, raise your hand
