Horizon

Compact Disco

Outside the blue's breaking the dark, and the summer night is done.
You mesmerize me when your eyes are sparkling back the Sun.I'm watching you carry a summer dress to the break of day,
I think the dawn and you are so beautiful, beautiful.Chorus:
Sunshine, sunshine baby...
Sunshine, sunshine baby...I see a goose passing the park; and everything is so calm,
You lie down to gaze at the skies and watch the rising Sun.
