When I Hear Music

Debbie Deb

When I hear music, it makes me dance
You got the music, here's my chance
When I hear music, it makes me dance
You got the music, here's my chanceWent to the disco, couldn't believe my eyes
I looked on the dance floor, saw so many guys
I asked myself, could this really be?
Whether it is or not, I'm going to seeWhen I hear music, it makes me dance
You got the music, here's my chanceThe guys look really fine, they almost blew my mind
They almost blew my mind
The guys looked really good, just like I knew they would
And I'm gonna get a man if I get a chance
Here's my chanceWhen I hear music, it makes me dance
You got the music, here's my chance
When I hear music, it makes me dance
You got the music, here's my chanceThe night is still young and I'm gonna have some fun
And I'm in a trance, all I want to do is dance
Watch me dance
Everybody's having fun and the music's number one
And the lights are shining bright, there's a party here tonightWhen I hear music, it makes me dance
You got the music, now, here's your chance
Everybody dance
Let me see you danceIt stated getting late, the night was really great
When I hear music, give me a chance, here's your chanceWhen I hear music, I wanna dance
You got the music, I'm gonna danceWhen I hear music, it makes me dance
You got the music, here's my chance
When I hear music, it makes me dance
You got the music, here's my chanceWhen I hear music, it makes me dance
You got the music, I'm gonna dance
When I hear music, it makes me dance
You got the music, here's my chanceWhen I hear music, it makes me dance
You got the music, here's my chance
