Don't Believe It All

Treble Charger

Halfway from midnight to dawn
Let's just forget and move on
Everything you say
It never seems to change a thing in sight
The things you never did
Were even worse considering what's right
(All this time I've)
Been the one you string along
You tie me up to bring along
Never once getting in your way
What you say is unbelievable
I can't stand to hear it once more
What you did, I don't believe it all
And what's worse you can't even say, why
Half of my life flashes by
Just look me straight in the eye
Words are kinda cheap
The company you keep is more to blame
The things you always did
They never seemed to me to be as tame
(All this time I)
Tried to leave and never could
Wonder if I ever would
Knowing you'd be standing in my way, so
What you say is unbelievable
I can't stand to hear it once more
What you did, I don't believe it all
And what's worse you can't even say, why
You can't even say, why, you can't even say
Like it was ten years ago
What's forgotten down below
Some things that you'll never know
What you say, I can't believe
I wanna know what's right
What you say, I can't believe
I wanna know what's right
What you say, I can't believe
I wanna know what's right
What you say is unbelievable

I can't stand to hear it once more
What you did, I don't believe it all
And what's worse you can't even say why
(I wanna know what's right)
What you say is unbelievable
I can't stand to hear it once more
What you did, I don't believe it all
And what's worse you can't even say why
What you say, I can't believe
I wanna know what's right
What you say, I can't believe
I wanna know what's right
