Love Shock

Bosson

Overheating, heart is speeding up
Now I want you to tell me, just what's been going on
Your body is freezing got all the symptoms of
Someone who's fooling around with some radioactive love
Any minute you can start going out of your mind
(I wanna tell you)
'Cause it's no crime
The meter's showing all of your vital signs
Say, it's love shock
Welcome to my world
You've been infected by a non-stop electronic girl
Say, it's love shock
This time it's for sure
And I tell you that it won't stop 'cause they got no cure, got no cure
You might as well face it, highly contagious vibe
And if you're good at reading, well read right between the lines
Supersonic, catatonic male
I think you're coming around, but you're still looking very pale
Any second you could start losing track of the time
(Wanna tell ya)
And it's no lie
'Cause the meter's showing all of your vital sign
Say, it's love shock
Welcome to my world
You've been infected by a non-stop electronic girl
Say, it's love shock
This time it's for sure
And I tell you that it won't stop 'cause they got no cure, got no cure
Such an extraordinary, modern day romance
Uhh yeah, there's nothin' you can do to fight it
Take a chance, go on and take a chance
Say, it's love shock
Welcome to my world
You've been infected by a non-stop electronic girl
Hey, it's love shock
This time it's for sure
And I tell you that it won't stop 'cause they got no cure
Hey, it's love shock
Welcome to my world

You've been infected by a non-stop electronic girl
Hey, it's love shock
Welcome to my world
You've been infected by a non-stop electronic girl
...
