Great

Instruction

One, two, three, fourIt's the time of our lives
It's the time of our lives
So let's get started
It's the time of our lives
It's the time of our lives
So join the partyLet me in, let me in I got everything
But I'm not wasting my time again
Let me in, let me in I got everything
But I'm not wasting my time againLet's get something
(Let's get something)
Let's get something straight
You are gonna be nothing
And I am so fucking greatIt's the fight of our lives, fight of our lives
So make me want it
I'm a part of the lies and I'll wait for the time
Till you will buy itLet me in, let me in, I've got everything
Let me in, got more then everythingLet's get something
(Let's get something)
Let's get something straight
You are gonna be nothing
And I am so fucking greatLet's get something
(Let's get something)
Let's get something straight
You are gonna be nothing
And I am so fucking
(Great, great, great, great)(Great, great, great, great)
And I am so fucking great
(Come on, come on)
And I am so fucking great
(Come on, come on, come on)
And I am so fucking great
